

DP Pulveriser

since 1962

DP[®] Universal Pin Mill
Size Reduction Mill

Features & Benefits

- High fineness upto 35 μm
- Lab & Production models
- Capacity ranges from 5gms/batch to 3000 lbs/hr.
- Energy efficient & economical to operate
- Can grind materials upto Mohs hardness 4 or less
- Constructed in stainless steel
- Variable speed rotor drive
- Designed for easy access and cleaning.
- Compact design & dust free operation

Options & Accessories

- Gravity or pneumatic conveying discharge
- Various option for feeding and system configuration
- Containment design options available for isolator installations
- Cryogenic operation available
